

Why Choose Supreme Resurfacing Systems?

There are a number of "Spray Pave" contractors out in the market place and while most offer great service and value for money, others are using this time of economic uncertainty to put it bluntly "rip customers off" the way some are doing this is to offer "discounted" rates that seem unbelievably cheap which they are, BUT what are you getting for your hard earned dollars? Not much.

What they are doing or not doing is allowing customers to choose apples for apples by being vague on their quotes by not telling customers that they are only getting 1 coat of spray pave.

Most reputable operators will offer 3 coats of spray pave not 1 coat like some.

Another one that we have seen from time to time is the operators who tell you its "ok" to spray pave over existing sealer. There is no excuse and no reason to not grind this sealer off prior to application of spray pave. Don't let them talk you into using seal strippers or paint strippers and then just high pressure it off as the run-off will damage plants and could kill pets. Also the excess ends up in storm water on its way to our lovely bays and waterways.

The great sealer rip-off is another one. It is not recommended to dilute spray pave seal with zylene to thin it out. For the first coat, most manufactures recommend on their labels to apply 2 coats of sealer neat and not diluted.

Why Choose Supreme Resurfacing Systems? Here are 10 Good Reasons

1. We Know Concrete, Because We Concrete As Well As Spray Pave.
2. Extensive Industry Knowledge.
3. The longest Warranty In Australia (10 Years)
4. Owned & Operated In Australia Using Australian Products.
5. We Cover All Regions Of Victoria.
6. Fantastic Rates
7. No Penalties For Custom Work.
8. We Don't Dilute Sealer.
9. We Listen To our Customers.
10. 3 Coats Of Spray Pave NOT 1

We offer a fully personalized service with as much customer input as possible because its your property and you should be happy with the final design and colours. We also have an extensive range of colours and custom designs together with the standard stencil patterns.
